Profile

Graduate Cloud Engineer, highly motivated, with 2 years of professional experience in DevOps and cloud infrastructure. Experienced in implementing monitoring solutions to minimize service interruptions. Proficient in OpenStack, Docker, and Kubernetes with hands-on experience in modern full-stack development.

Core Competencies

Operating Systems: Ubuntu, CentOS , Kali Linux

Version Management Tools: Git , GitLab , Harbor

Containerization and Orchestration: Docker , Kubernetes , Helm Charts

Automation and Orchestration: Ansible , Terraform

Virtualization and Cloud: OpenStack, Azure, vSphere , Proxmox , OVH , Ionos

Monitoring: Prometheus, Grafana, ELK Stack , zabix , Nagios , Uptime Kuma

Programming Languages: Java, JavaScript , Node

frameworks et Technologies: React, Angular , spring Boot

Databases: PostgreSQL, MySQL, MongoDB , Oracle

Automation and AI: n8n, OCR, AI document processing

Professional Experience

- | | |
|-------------------|--|
| Sept 2024–Present | DevOps Engineer, Eyootech, Tunis, Tunisia <ul style="list-style-type: none">○ Implemented CI/CD pipelines using GitLab CI, reducing deployment times by 50%○ Managed Kubernetes clusters and monitored cloud infrastructure (98% availability) |
| Feb–Aug 2024 | PFE Intern - Platform Development, Eyootech, Tunis, Tunisia <ul style="list-style-type: none">○ Developed cloud-native CV platform using Next.js and Node.js○ Containerized applications with Docker and deployed on OpenStack |
| Jul–Sep 2021 | System Optimization Intern, Focus, Tunis, Tunisia <ul style="list-style-type: none">○ Improved system efficiency by 20% using Harbor, vROps, and vCloud○ Managed virtual environments and optimized resource allocation |
| Apr–Jun 2021 | Remote Monitoring Intern, OEP, Tunis, Tunisia <ul style="list-style-type: none">○ Implemented remote monitoring solution reducing system downtime by 15%○ Configured alert systems for infrastructure health checks |
| Aug–Sep 2020 | IT Support Intern, Leoni Mateur, Tunis, Tunisia <ul style="list-style-type: none">○ Reduced network issues by 25% through troubleshooting and maintenance○ Provided technical support for 50+ end-users |

- Jul-Sep 2019 **Service Improvement Intern**, *Tunisie Telecom*, Tunis, Tunisia
- Improved service reliability by 15% through system optimizations
 - Enhanced problem resolution accuracy by 20% through documentation

Key Projects

- 2025 **JSK eSports Gaming Platform**, *Personal Project JSK*
- Design and development of a complete gaming platform with a stack (React/Node.js/MongoDB)
 - Administrator dashboard for managing tournaments, players, teams, and results
 - Intuitive client interface with a registration system and performance tracking
 - Implementation of a RESTful API and a secure authentication system
- 2024 **Jolt CV Platform**, *Eyootech*
- Led team of 4 developers to build SaaS platform (Next.js/PostgreSQL)
 - Achieved 30% user engagement increase through UI/UX optimization
 - Implemented RBAC security model with JWT authentication
- 2023 **CareerTN Integration**, *ESPRIT*
- Migrated monolithic architecture to microservices (Spring Boot/Kubernetes)
 - Reduced API response times from 1200ms to 300ms
 - Automated testing pipeline with 85% code coverage

Education

- 2022–2024 **M.Eng. Cloud Computing**, *ESPRIT*, Tunis
Graduated with Honors
- 2019–2021 **B.Sc. Networks & Telecom**, *ISSAT Mateur*
Graduated with Honors

Technical Skills

- Languages Python, Java, JavaScript, SQL, Bash
- Frameworks Spring Boot, React, Angular, Node.js
- Tools Ansible, Terraform, Jenkins, GitLab CI/CD
- Cloud AWS, OpenStack, Azure, Google Cloud
- OS Linux (Ubuntu/CentOS), Windows Server

Languages

- Arabic Native
- French Professional Proficiency (B2)
- English Professional Proficiency (B2)

Certifications

- 2020 **Public Speaking**
- 2019 **Python Core Programming**
- 2018 **Innovation Camp**
